**STATEMENT ACOOMPANYING ILLINOIS VALLEY CELLULAR’S CPNI
COMPLIANCE CERTIFICATE**

- Illinois Valley Cellular has established the following procedures by which the status of a customer’s CPNI approval can be clearly established prior to allowing the use of customer CPNI. The following business procedures are in place for Illinois Valley Cellular with respect to customer privacy of phone number(s) and call detail information.
1. Section 15 of The Illinois Valley Cellular Terms and Conditions for service Titled YOUR PRIVACY reads as follows: *IVC has a duty under federal law to protect the confidentiality of information about the quantity, technical configuration, type destination, and amount of your use of our services, together with similar information on your bill(s). This does not include your name, address, and wireless phone number.) Except as provided in this agreement, we will not intentionally share personal information about you without your permission. We may use and share information about you: (a) in order to provide our goods or services; (b) so others can provide goods or services to us on your behalf; (c) so we or any of our affiliates can communicate with you about goods or services related to the ones you already receive. You may provide to us in writing authorized individuals, such as family members or authorized business affiliates who may obtain your account information. Written subpoenas by authorized law enforcement are required for release of any and/or all call detail to anyone other than the account holder. (d) The subscriber remains the only person able to make changes and/or discuss the account(s) with IVC.*
 2. Business Practice - Call detail records requested over the phone require verification with the customer providing that last (4) digits of their Social Security number, drivers license, or private password set up by customer in coordination with IVC.
 3. Business Practice - Call detail records are never faxed and only emailed after customer has completed the verification process. (Business Practice 2)
 4. Business Practice - Call detail records in the form of bill reprints may be mailed to the billing address of the account holder upon request.
 5. Business Practice - Call detail records may be mailed to authorized law enforcement agencies upon receipt of a subpoena per Illinois Valley Cellular Terms and Conditions – Section 15.
- Illinois Valley Cellular trains its personnel with access to CPNI information as to the aforementioned procedures and as to when they are and are not authorized use CPNI. Illinois Valley Cellular has an expressed disciplinary process in place to deal with employee failures.

- Illinois Valley Cellular maintains a record of its own and its affiliates' sales and marketing campaigns that use CPNI. The record includes the information required by Section 64.2009(c) of the FCC Rules. The Illinois Valley Cellular general manager, an employee of the Operating Partner for each Illinois Valley Cellular FCC Licensee, supervises this process and provides the requisite supervisory approvals. The General Manager reports directly to the President of the Operating Partner.
- Illinois Valley Cellular is prepared to provide the written notices to the Commission as set forth in Section 64.2009(f) of the Commission's Rules in the event that the Illinois Valley Cellular "opt-out" mechanisms do not work properly to such a degree that a consumer's inability to opt-out is more than an anomaly.
